

From Absence to Active Employment: *Closing the Continuum*

Bringing the ability management cycle full circle

Do you know that your employees are your most important asset? Are there ways that you can decrease absent and potentially absent employees? From initial claim filing to returning the employee back to active work, effective Ability Management through out the claims process can return your absent and potentially absent employees back to productive work in an efficient manner. Learn what ground-breaking steps your company can take to close the absence-to-active-employment continuum. Ultimately, progressive Ability Management can create a more positive workplace and directly impact the financial cost of injuries for your company.

DATE: October 18, 2006

TIME: 8:00am–9:30am

**RSVP: 403.398.8615 OR

Please RSVP as Space is limited

Breakfast Seminar

You are invited to an educational breakfast seminar on October 18, 2006 at 8:00am at the Blackfoot Inn in the Sundance Suite. A full, complementary breakfast will be served while you have a chance to listen to revolutionary ideas on ability management. Individuals who manage with human resources, occupational and non-occupational claims, benefits, and company health and safety will benefit from attending this seminar.

Event Speakers

Richard Dillabough-Daedalus Group

Richard will provide an overview of the claims process and what role your company can play in facilitating absent and potentially absent employees back to productive employment.

Kathryn Salamanchuk-Core Values

How is your company involved in difficult claims? Kathryn will share some pro-active ideas on how to better manage those difficult claims to return absent employees to the workplace.

Jolene Kober-EARA Technologies

Does your company have a foundation for “ability management”? Jolene will discuss how a Video PDA® database is the basis for effective Ability Management programs.
